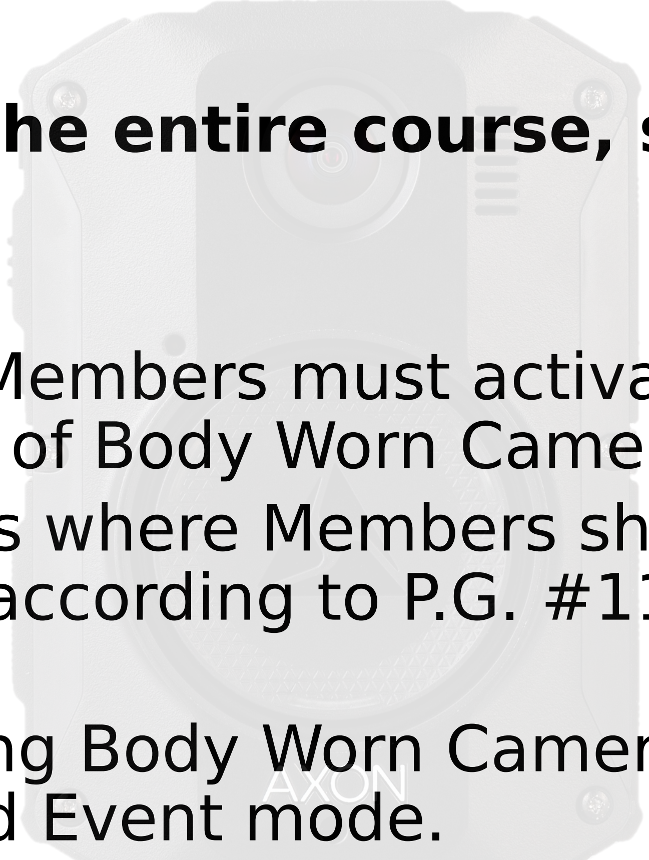
BODY WORN CAMERA

METROPOLITAN TRANSPORTATION AUTHORITY
POLICE DEPARTMENT

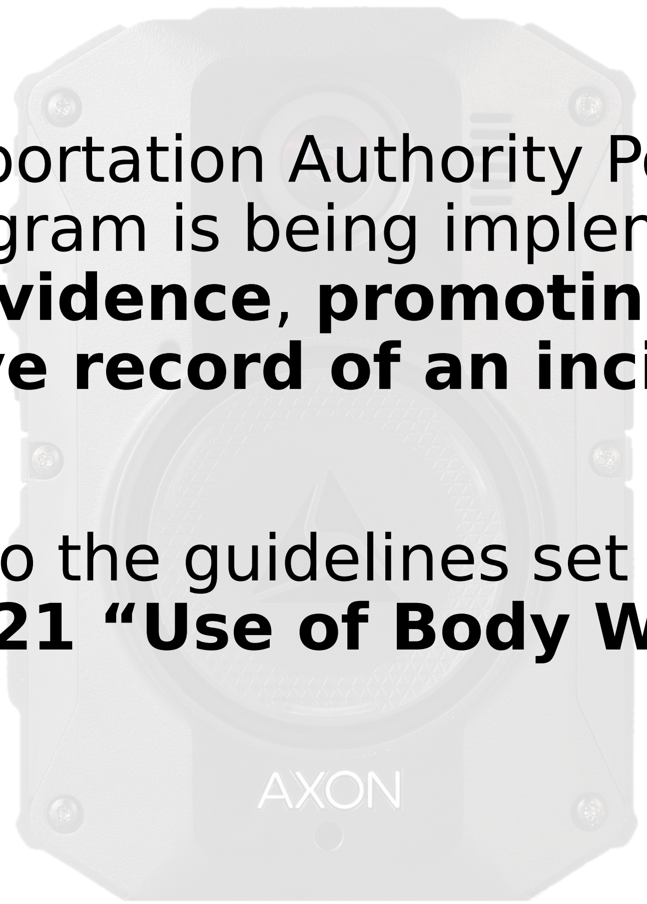
INSTRUCTIONAL OBJECTIVES



Upon completion of the entire course, students will be able to:

- List events where Members must activate the BWC, according to P.G. #11-21 Use of Body Worn Cameras (BWC).
- List required events where Members shall not intentionally activate the BWC, according to P.G. #11-21 Use of Body Worn Cameras (BWC).
- Demonstrate placing Body Worn Camera (BWC) into pre-event buffering mode and Event mode.
- Demonstrate how to “Mute” and “Unmute” on the BWC.

OVERVIEW

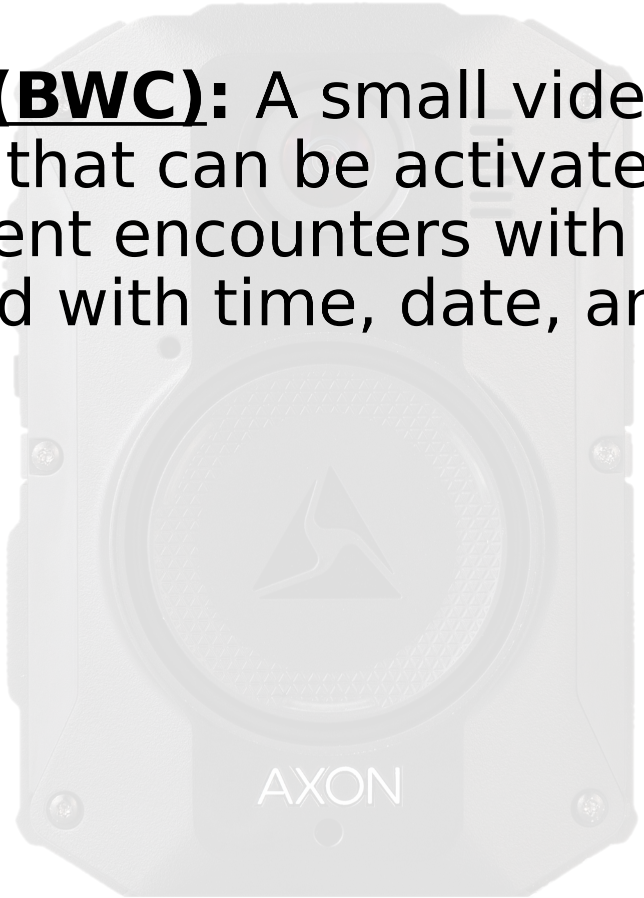


The Metropolitan Transportation Authority Police Department – Body Worn Camera Program is being implemented to assist our agency in **gathering evidence**, **promoting transparency**, and **providing an objective record of an incident**.

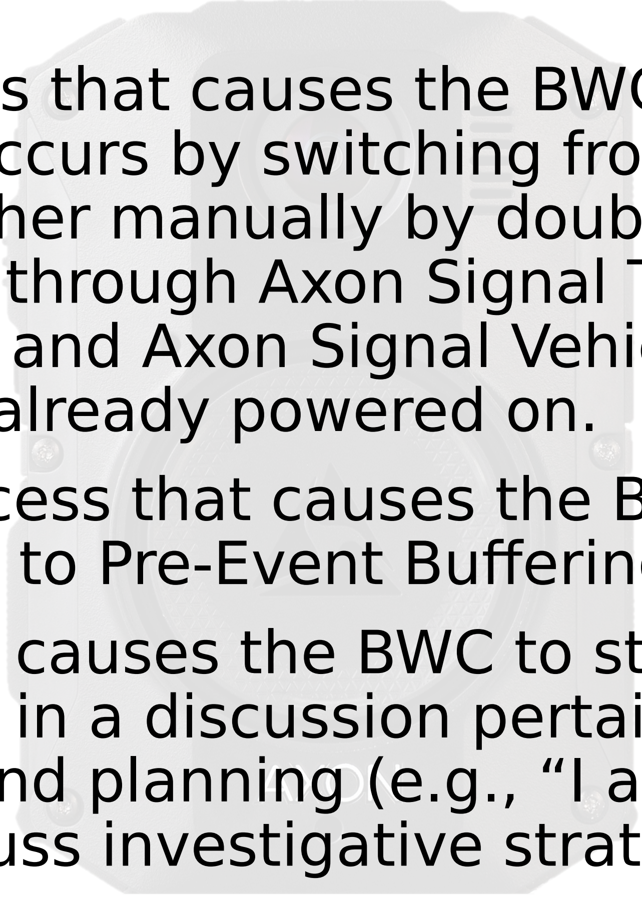
Members shall adhere to the guidelines set forth in **Department Manual Section #11-21 “Use of Body Worn Cameras (BWC)**.”

DEFINITIONS

- **Body Worn Camera (BWC):** A small video camera mounted on the Member’s uniform that can be activated to record video and audio of law enforcement encounters with the public. All recordings are stamped with time, date, and location.

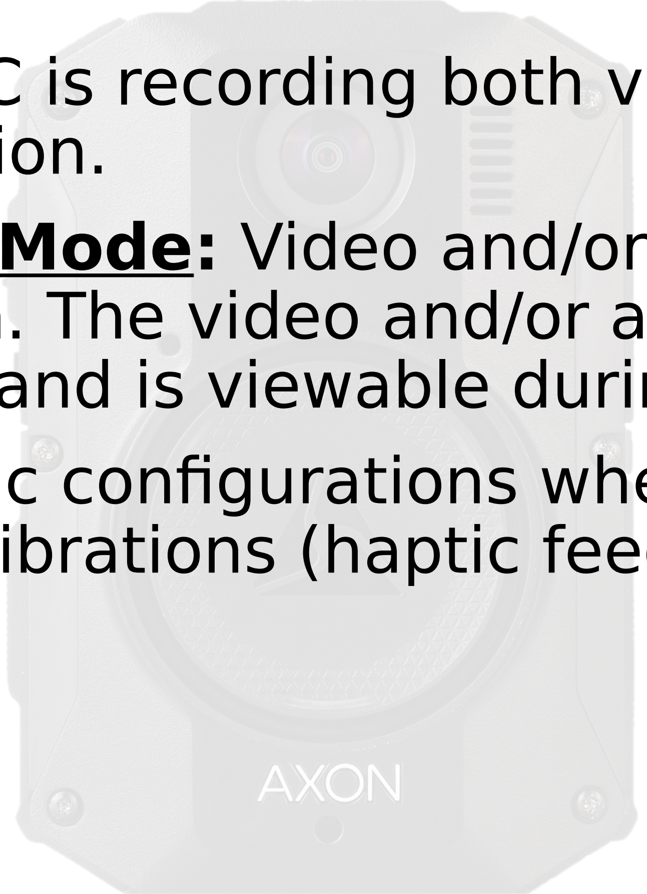


DEFINITIONS



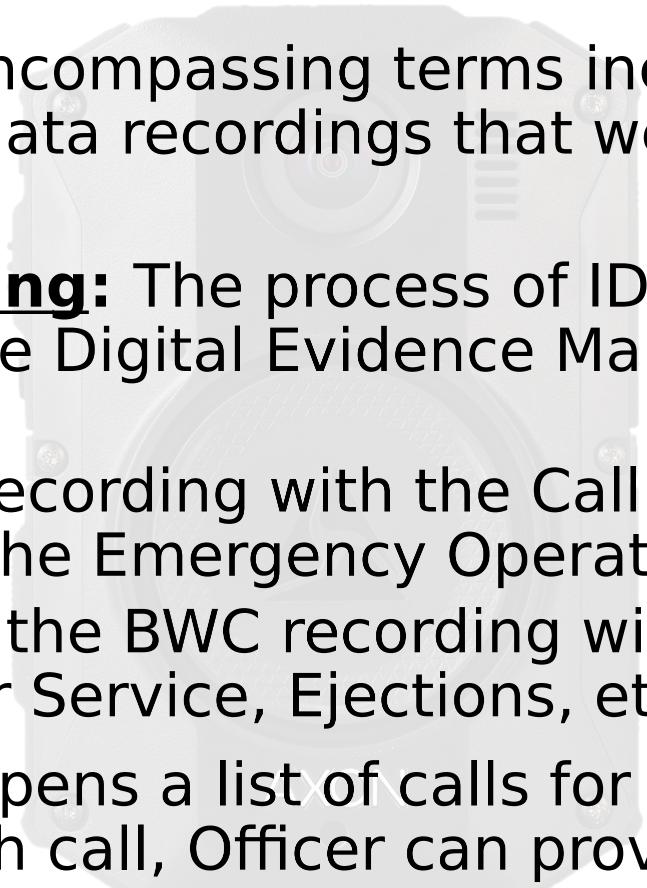
- **Activation:** Any process that causes the BWC to record audio and video data. Activation occurs by switching from Pre-Event Buffering Mode to Event Mode either manually by double tapping the event button or automatically through Axon Signal Technology Bluetooth feature (Taser T7 Signal and Axon Signal Vehicle). Activation can only occur when the BWC is already powered on.
- **Deactivation:** The process that causes the BWC to stop recording. This will return the BWC to Pre-Event Buffering Mode
- **Mute:** The process that causes the BWC to stop recording audio of a BWC while participating in a discussion pertaining to criminal investigation strategy and planning (e.g., “I am now turning off or muting my BWC to discuss investigative strategy with my Supervisor”).

DEFINITIONS



- **Event Mode:** The BWC is recording both video and audio because of this activation.
- **Pre-Event Buffering Mode:** Video and/or audio captured by the BWC prior to activation. The video and/or audio will be included as part of the incident and is viewable during playback.
- **Stealth Mode:** Specific configurations where LED lights, sounds (audio prompts), and vibrations (haptic feedback) are turned off while in Event mode.

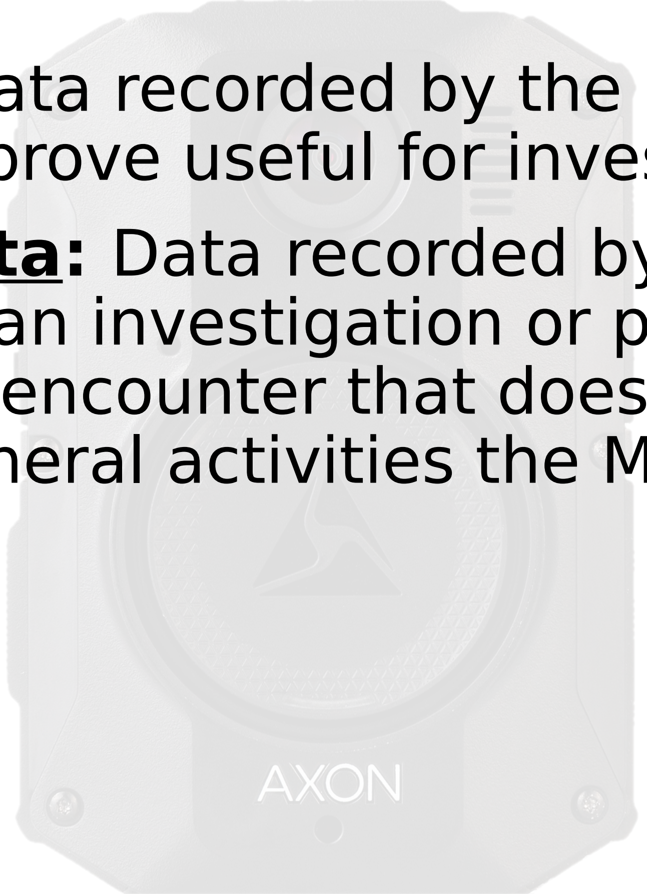
DEFINITIONS



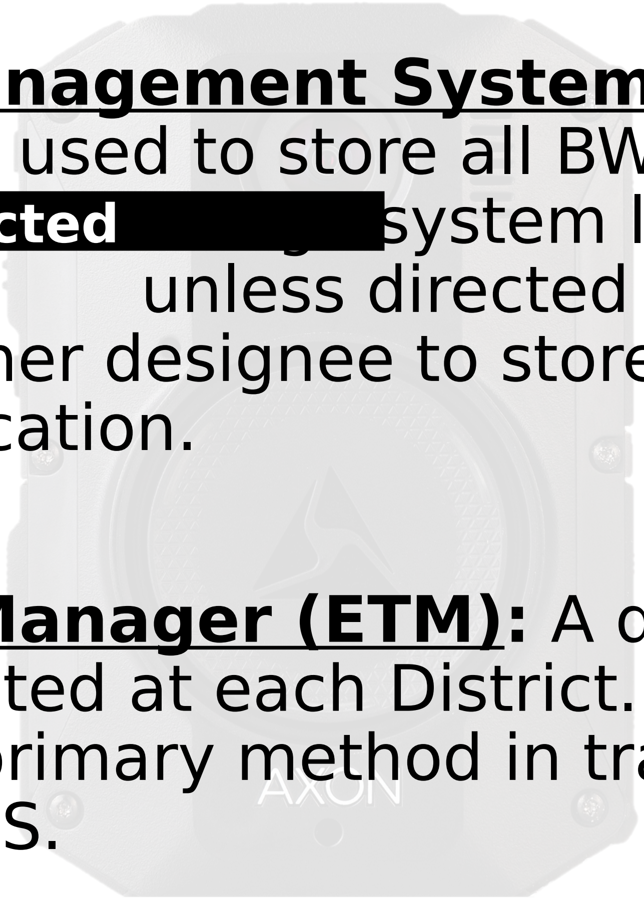
- **BWC Recordings:** All-encompassing terms include audio, video, images, data, and metadata recordings that were captured and uploaded by the BWC
- **BWC Recordings Tagging:** The process of ID’ing and Categorizing the BWC recordings in the Digital Evidence Management System (DEMS)
    - ID – linking the BWC recording with the Call Number or Case Number provided by the Emergency Operations Center
    - Categorize – labelling the BWC recording with the job type (e.g. Aided, Arrest, Calls for Service, Ejections, etc.)
- **Officer Clarification:** Opens a list of calls for service that are eligible for clarifications. For each call, Officer can provide a reason for not activating their BWC, add an optional note then click **SUBMIT**. A supervisor can export all of these clarifications via the Activation Rate Details report.

DEFINITIONS

- **Evidentiary Data:** Data recorded by the BWC of an incident or encounter that could prove useful for investigative purposes.
- **Non-Evidentiary Data:** Data recorded by the BWC that does not have value to aid an investigation or prosecution, such as data of an incident or encounter that does not lead to an arrest or citation, or data of general activities the Members might perform while on duty.



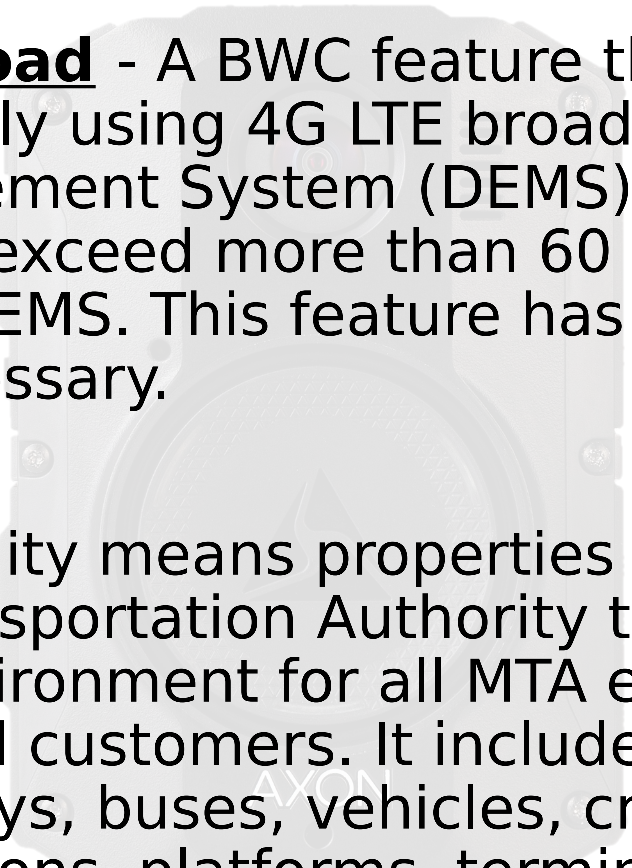
DEFINITIONS



- **Digital Evidence Management System (DEMS):** A cloud-based storage system used to store all BWC recordings. The Departm[redacted]system location is unless directed by the Chief of Administration or his/her designee to store specific recordings to another authorized location.

- **Evidence Transfer Manager (ETM):** A docking, charging and data transfer unit located at each District. Docking the BWC to the ETM shall be the primary method in transferring the BWC recordings to the DEMS.

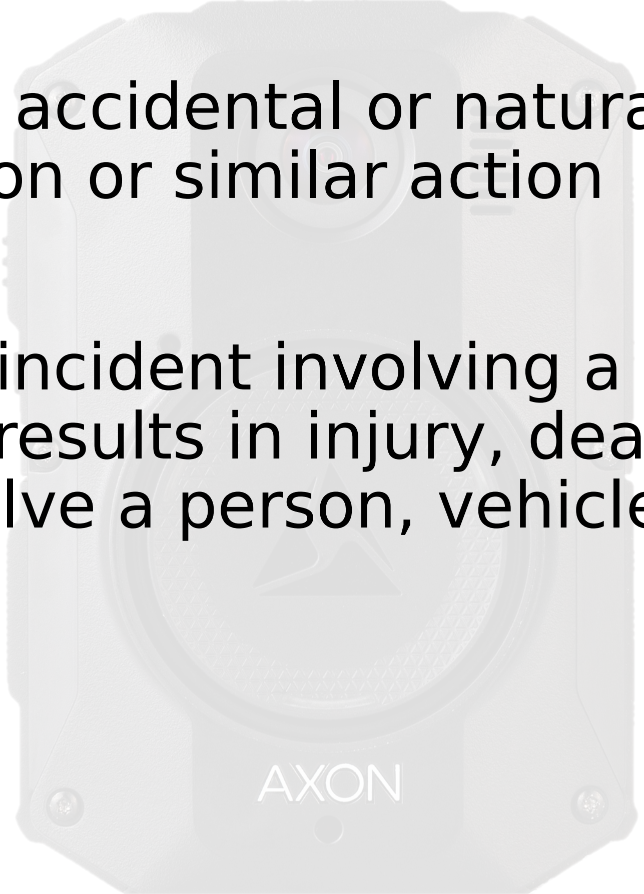
DEFINITIONS



- **Priority Evidence Upload** - A BWC feature that can be used to upload BWC recordings wirelessly using 4G LTE broadband standards to the Digital Evidence Management System (DEMS) without using the ETM. The recording must not exceed more than 60 minutes in length to successfully upload in DEMS. This feature has limited capabilities and shall be used when necessary.

- **MTA Facility** - MTA Facility means properties that are owned or leased by the Metropolitan Transportation Authority that are maintained as a safe and welcoming environment for all MTA employees, MTA contractors, visitors, and customers. It includes, but is not limited to, commuter trains, subways, buses, vehicles, crossings, tracks, shops, right-of-way, yards, stations, platforms, terminals, buildings, offices, parking areas, bridges, tunnels, and real estate.

DEFINITIONS

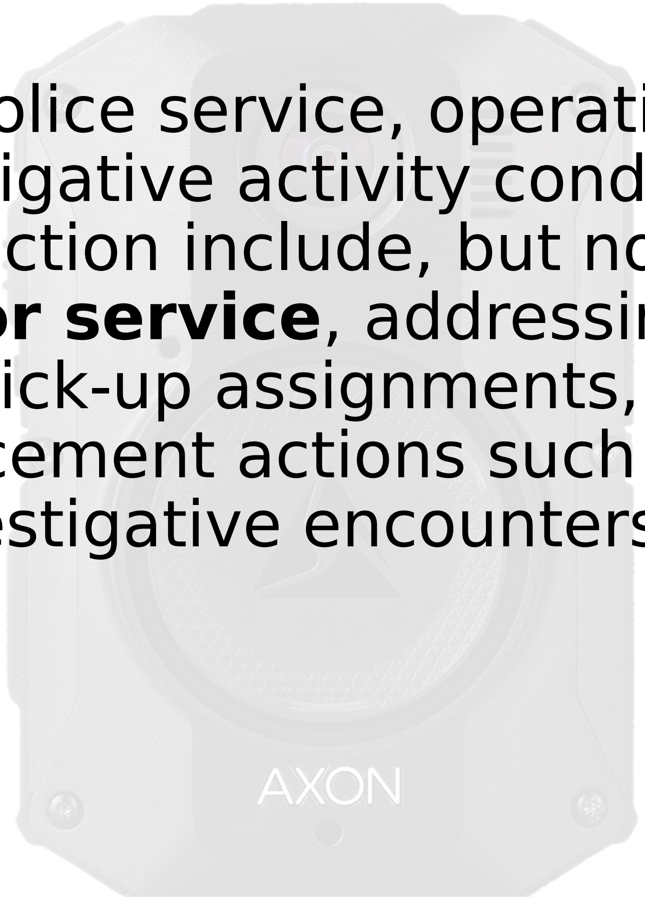


- **Critical Incident:** An accidental or natural disaster, civil disorder, terrorist action or similar action

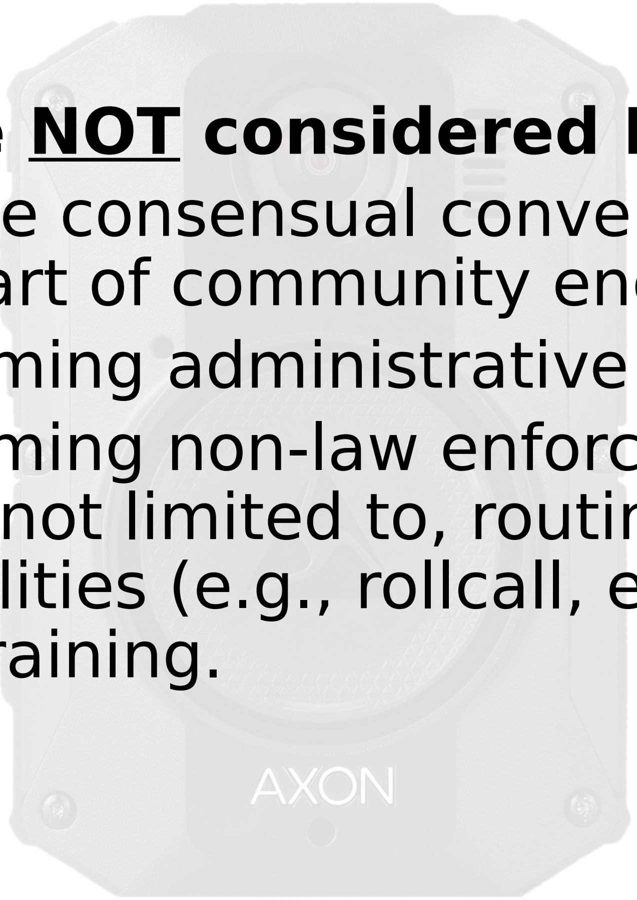
- **Train Accident:** Any incident involving a locomotive, engine, or train component that results in injury, death or property damage. The incident may involve a person, vehicle, another train, or other object.

DEFINITIONS

- **Police Action:** Any police service, operations, as well as law enforcement or investigative activity conducted in furtherance of official duties. Police action include, but not limited to, responding to **calls for service**, addressing quality of life conditions, handling pick-up assignments, and any self-initiated investigative or enforcement actions such as witness canvasses, vehicle stops and investigative encounters.

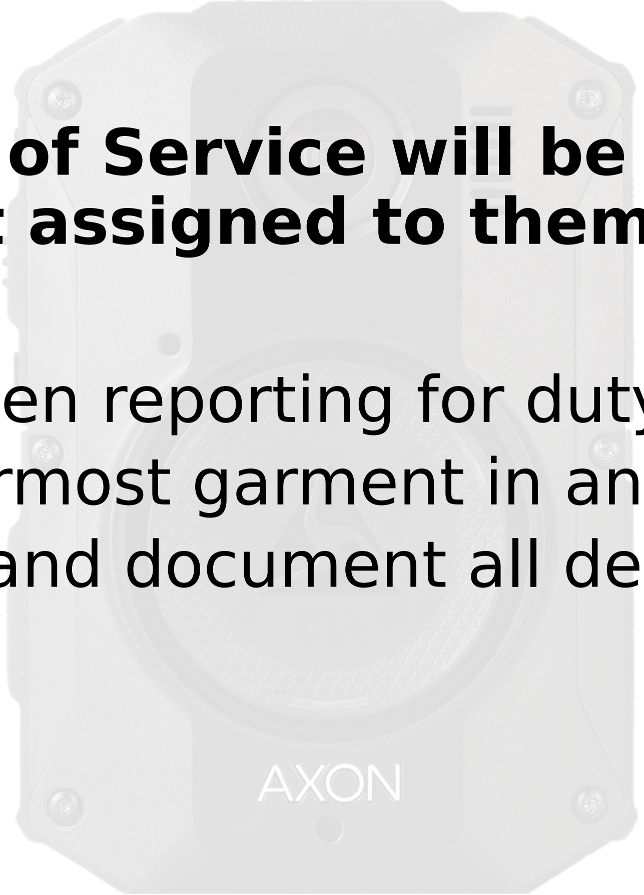


DEFINITIONS



- **The following are NOT considered Police Action:**
    - Members' routine consensual conversations with the public carried out as part of community engagement.
    - Members performing administrative duties.
    - Members performing non-law enforcement functions that include, but are not limited to, routine activities within Department facilities (e.g., rollcall, etc.), attending meetings, and training.

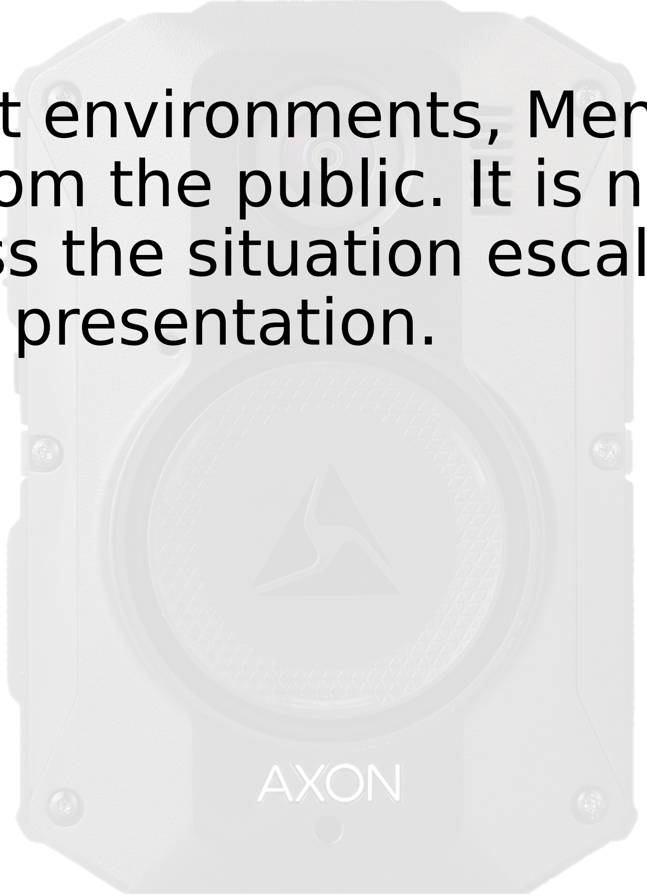
OPERATIONAL FUNCTIONS



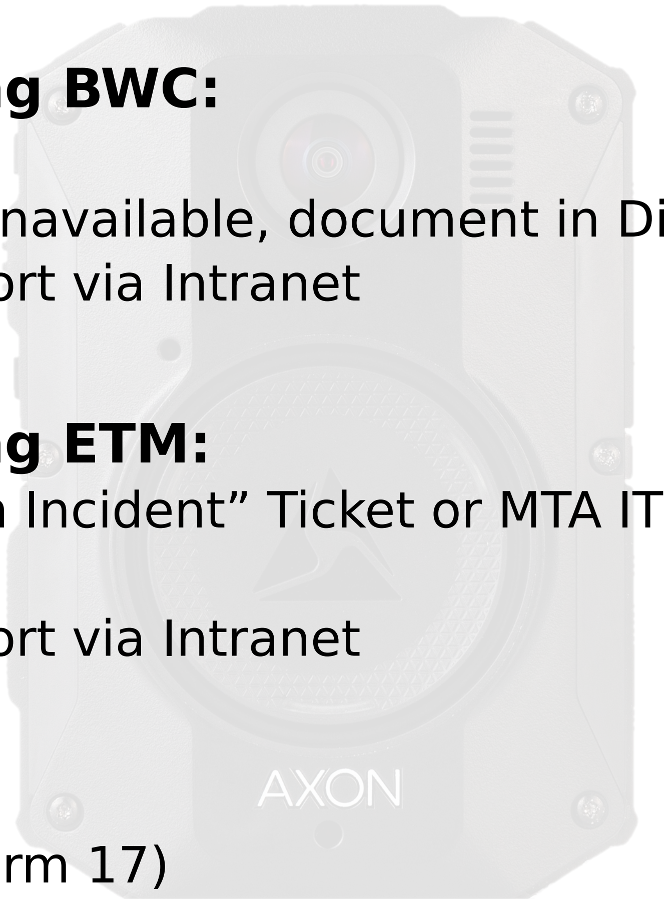
- **Uniformed Member of Service will be held accountable for the BWC equipment assigned to them.**
  - Must have BWC when reporting for duty.
  - Placed on the outermost garment in an approved area.
  - Must inspect BWC and document all details.

RECORDING

- Due to nature of transit environments, Members are often asked numerous questions from the public. It is not necessary to record every interaction unless the situation escalates, meets the criteria outlined in this presentation.



LOST, STOLEN, OR DAMAGED BWC & ETM:

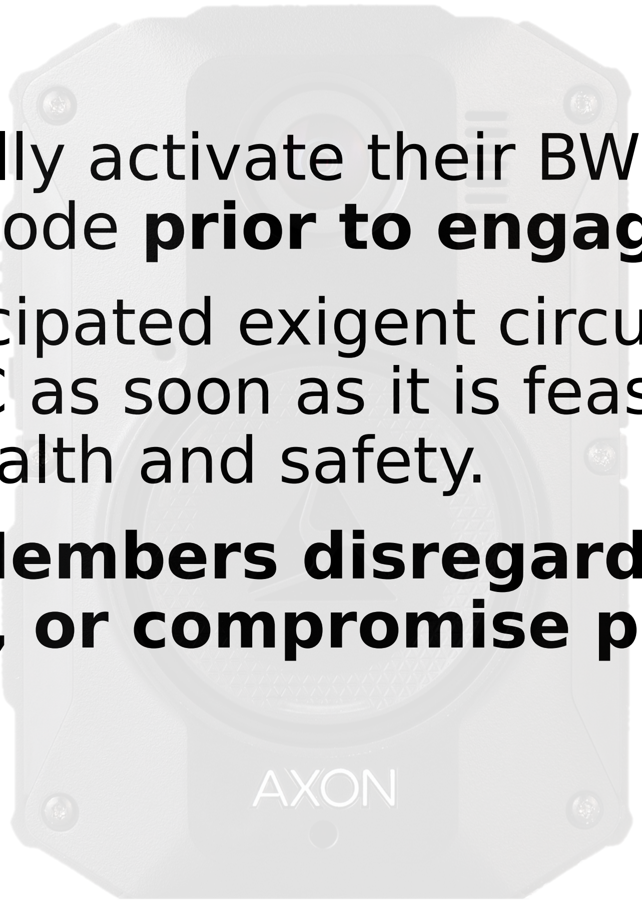


- **Damaged/Malfunctioning BWC:**
  - Notify Supervisor
  - Request replacement, if unavailable, document in Digital Memo Book
  - Prepare BWC Trouble Report via Intranet

- **Damaged/Malfunctioning ETM:**
  - Service Now – “ Report An Incident” Ticket or MTA IT Help Desk at (646) 252-8888
  - Notify Supervisor
  - Prepare BWC Trouble Report via Intranet

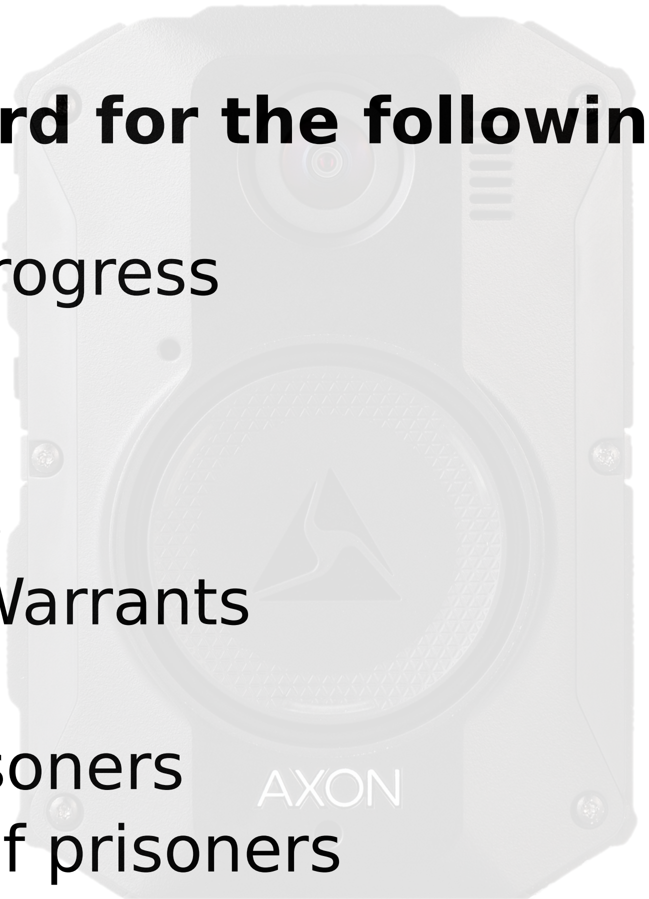
- **Lost/Stolen:**
  - Prepare Memorandum (Form 17)
  - Request replacement, if unavailable, document in Digital Memo Book
  - Prepare BWC Trouble Report via Intranet

ACTIVATION



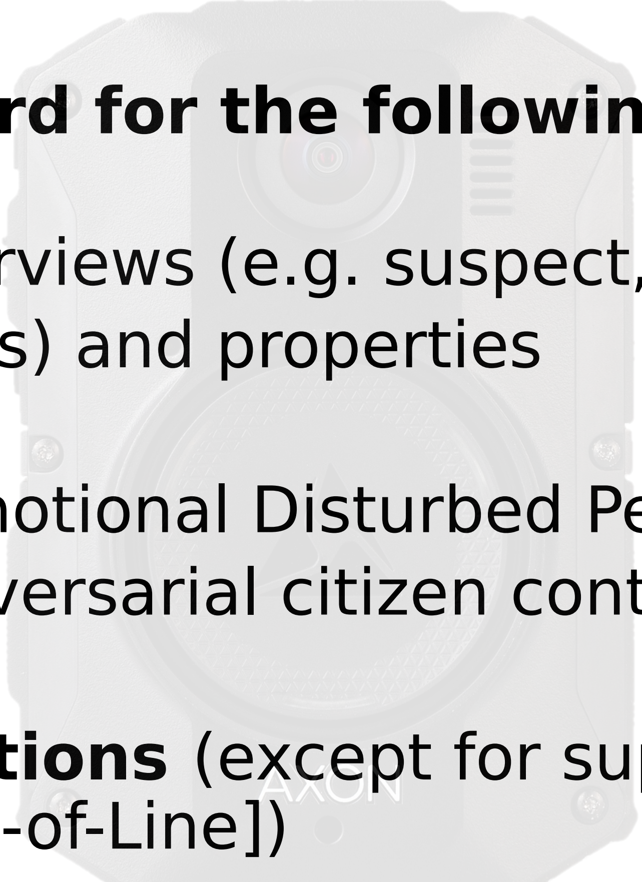
- Members shall manually activate their BWC video and video functions into Event Mode **prior to engaging in Police Action**.
- In the event of unanticipated exigent circumstances, Members shall activate the BWC as soon as it is feasible and safe to do so, to preserve human health and safety.
- **At no time should Members disregard human safety, the safety of the public, or compromise proper tactics to begin a recording**.

ACTIVATION



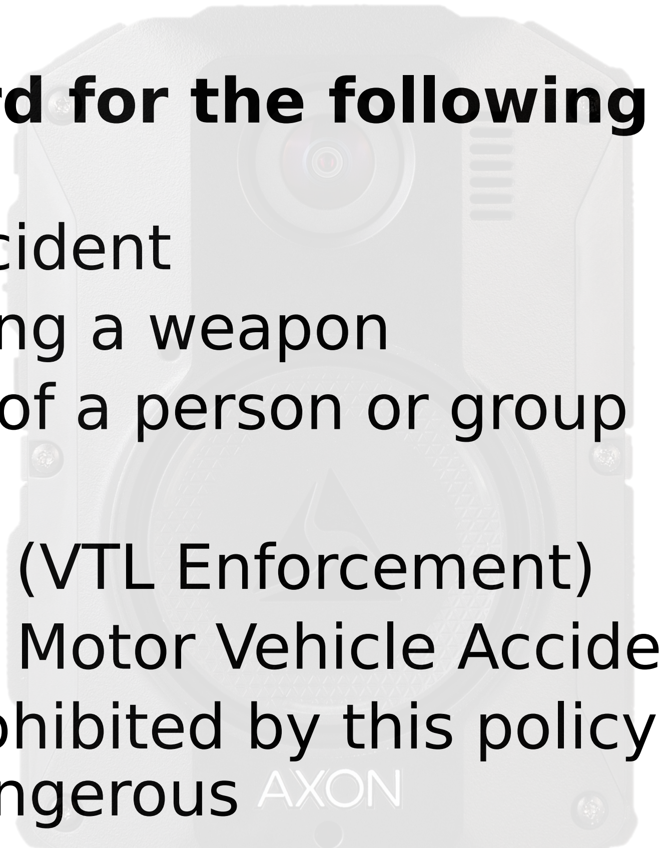
- **Members shall record for the following upon engaging in or assisting with:**
  - Possible crime in progress
  - Critical incidents
  - Train accidents
  - **Calls for services**
  - Executing Search Warrants
  - Arrest
  - Transporting of prisoners
  - Arrest processing of prisoners
  - Taking statements (e.g. suspect, witness, and victims)

ACTIVATION



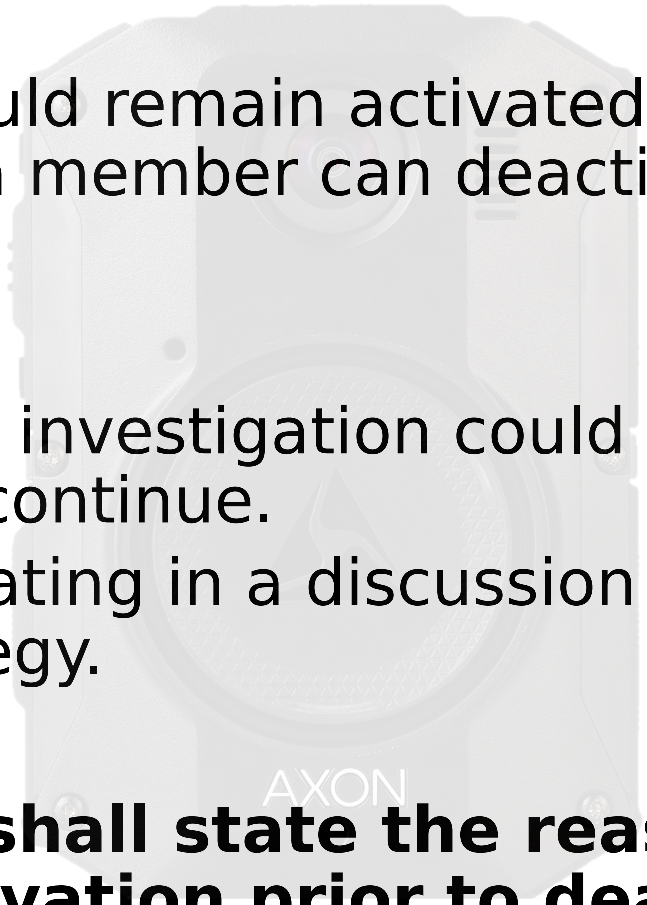
- **Members shall record for the following upon engaging in or assisting with:**
  - Conducting all interviews (e.g. suspect, witness, and victims)
  - Search of prisoner(s) and properties
  - **Aided cases**
  - Interaction with Emotional Disturbed Persons (EDP)
  - Confrontational/adversarial citizen contacts
  - Theft of Service
  - **MTA Facility ejections** (except for supervised preplanned operation [e.g. End-of-Line])
  - Issuance of summonses (except for parking violations of unoccupied vehicles)

ACTIVATION



- **Members shall record for the following upon engaging in or assisting with:**
  - Any Use of Force incident
  - Any incident involving a weapon
  - Disorderly Conduct of a person or group
  - Vehicle/Foot Pursuit
  - Motor Vehicle Stops (VTL Enforcement)
  - Motorist Assist (e.g. Motor Vehicle Accident and disabled vehicle)
  - Any incident not prohibited by this policy which may be unpredictable or dangerous
  - Any incident that was determined, based on experience and training, should be documented by the BWC

DEACTIVATION/MUTING AUDIO

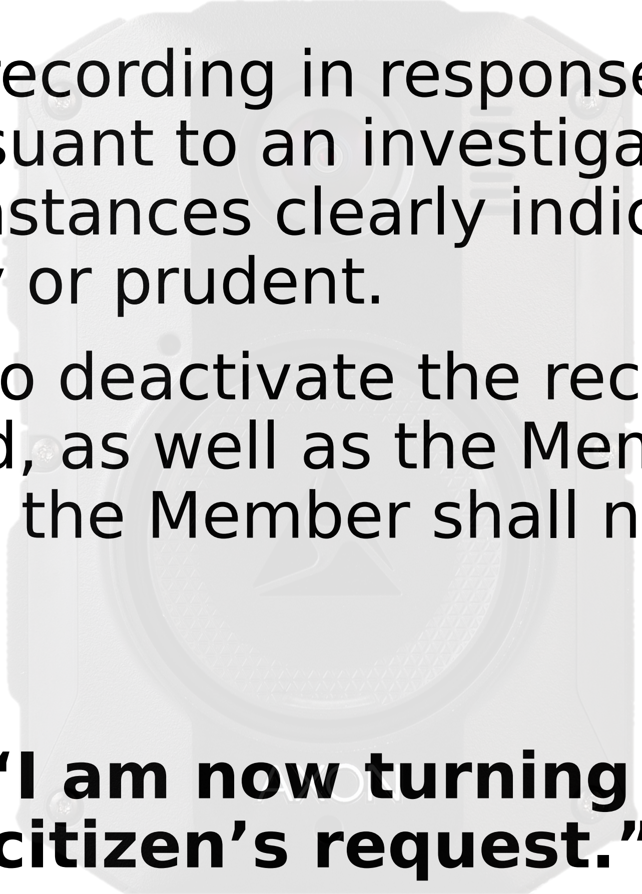


Body-worn camera should remain activated until the conclusion of an incident. However, a member can deactivate or mute recording if:

- They determine an investigation could be hampered if the recording were to continue.
- If they are participating in a discussion pertaining to criminal investigation strategy.

Members shall state the reason for the interruption/deactivation prior to deactivating the BWC. Consult supervision whenever possible.

CITIZEN’S REQUEST TO STOP RECORDING

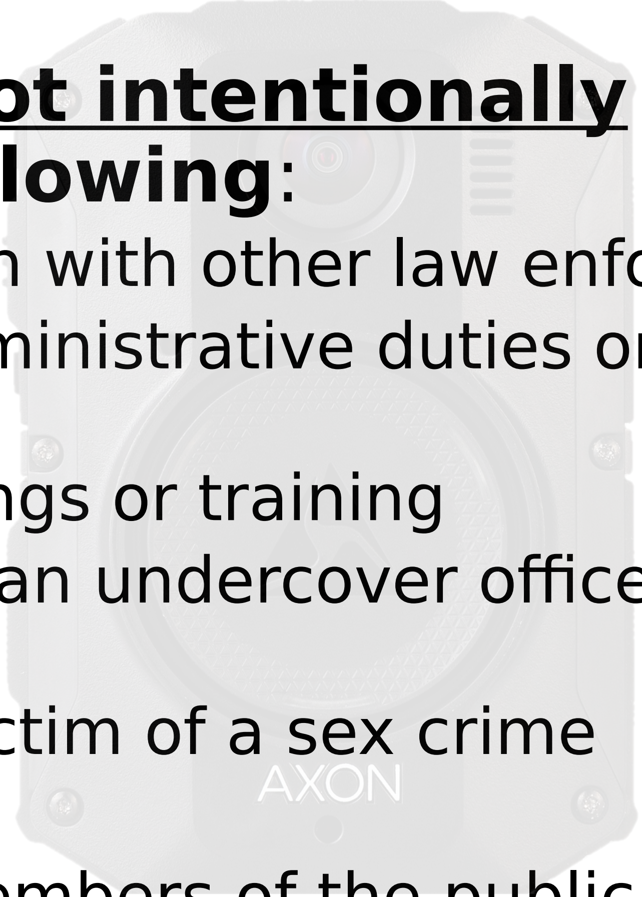


- No obligation to stop recording in response to a citizen’s request if the recording is pursuant to an investigation, arrest, or lawful search or if the circumstances clearly indicate the continued recording is necessary or prudent.
- The citizen’s request to deactivate the recorder shall be electronically recorded, as well as the Member’s response. Before deactivating the BWC, the Member shall narrate the circumstances.

Suggested phrase: “I am now turning off my BWC, per the citizen’s request.”

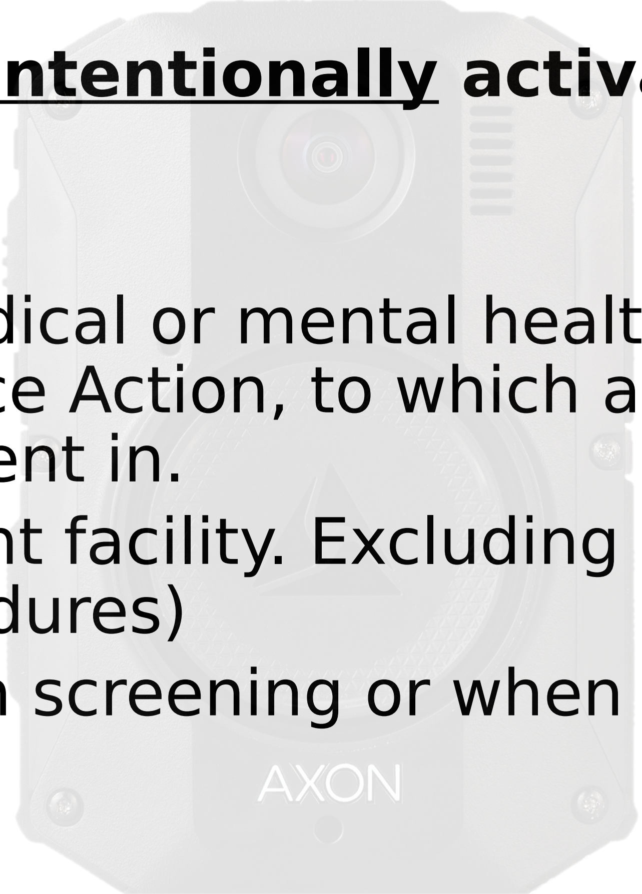
Members shall consider the privacy interests of the person requesting deactivation.

PROHIBITED RECORDINGS



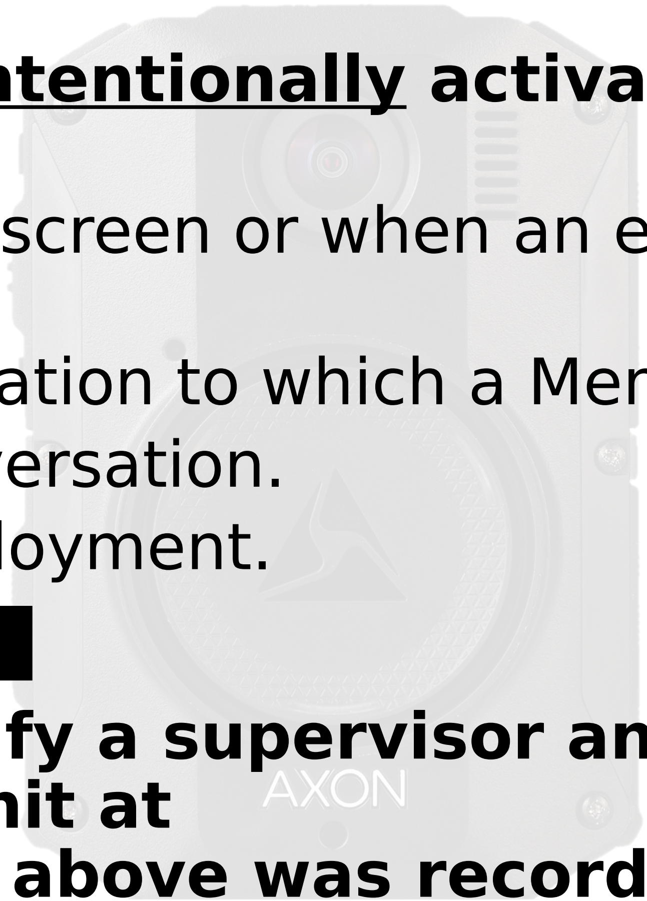
- **Members shall not intentionally activate a BWC for any of the following**:
  - Any communication with other law enforcement personnel
  - Performance of administrative duties or non-enforcement functions
  - Department meetings or training
  - An encounter with an undercover officer or confidential informant
  - Interviewing the victim of a sex crime
  - Strip searches
  - Interacting with members of the public who are nude or exposing their private body parts
  - When present in a court facility (as per 22 NYCRR 29.1)

PROHIBITED RECORDINGS



- **Members shall not intentionally activate a BWC for any of the following**:
  - The inside of a medical or mental health facility, unless in furtherance of Police Action, to which a suspect of a crime is thought to be present in.
  - Inside a Department facility. Excluding arrest processing duties (i.e. booking procedures)
  - Explosive detection screening or when an explosive device may be present.

PROHIBITED RECORDINGS

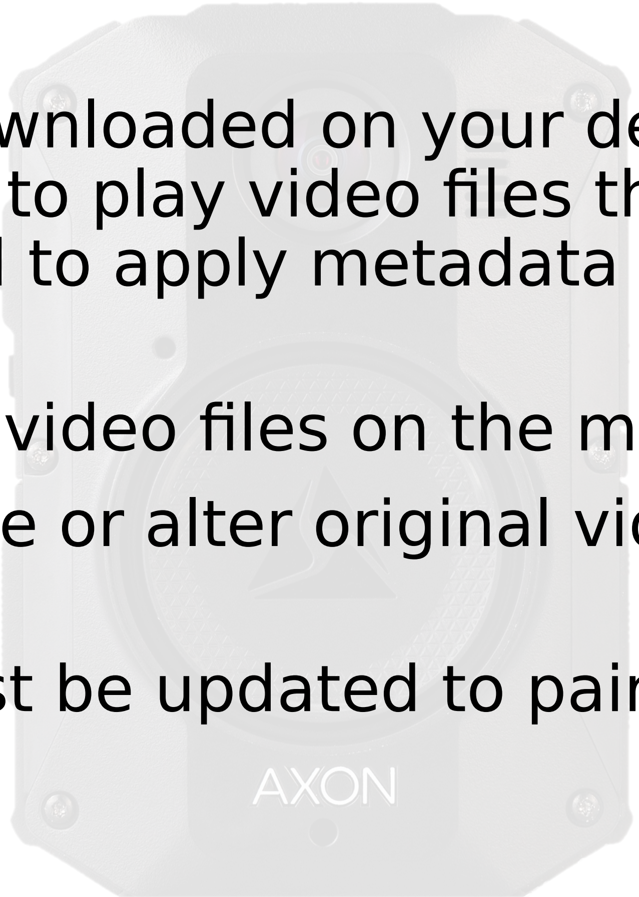


- **Members shall not intentionally activate a BWC for any of the following**:
  - Explosive detection screen or when an explosive device may be present.
  - Any private conversation to which a Member is not a party of.
  - Any telephonic conversation.
  - Any secondary employment.

REDACTED

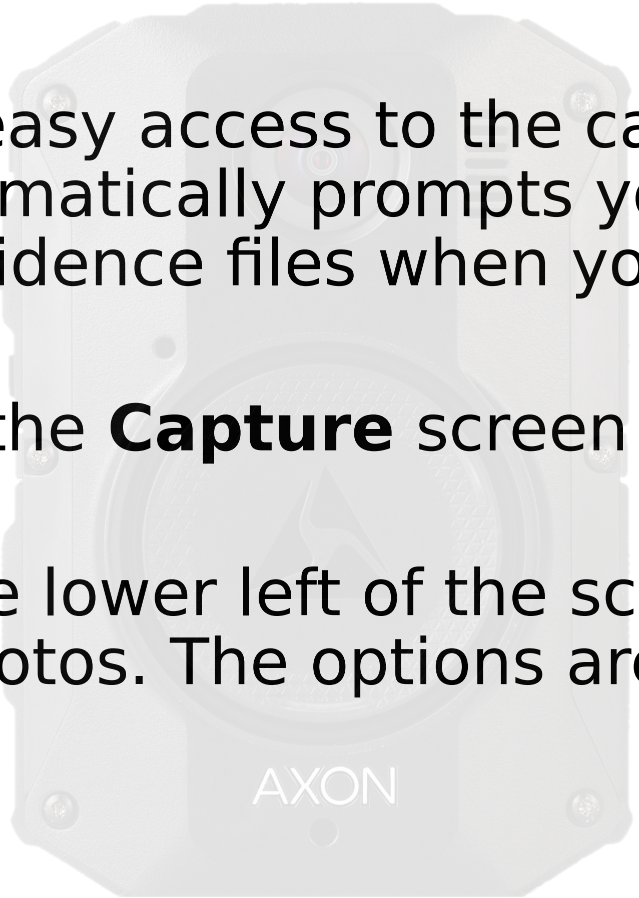
Members must notify a supervisor and the Integrated Communications Unit at if a prohibited event as described above was recorded and make a digital memo book entry.

AXON VIEW



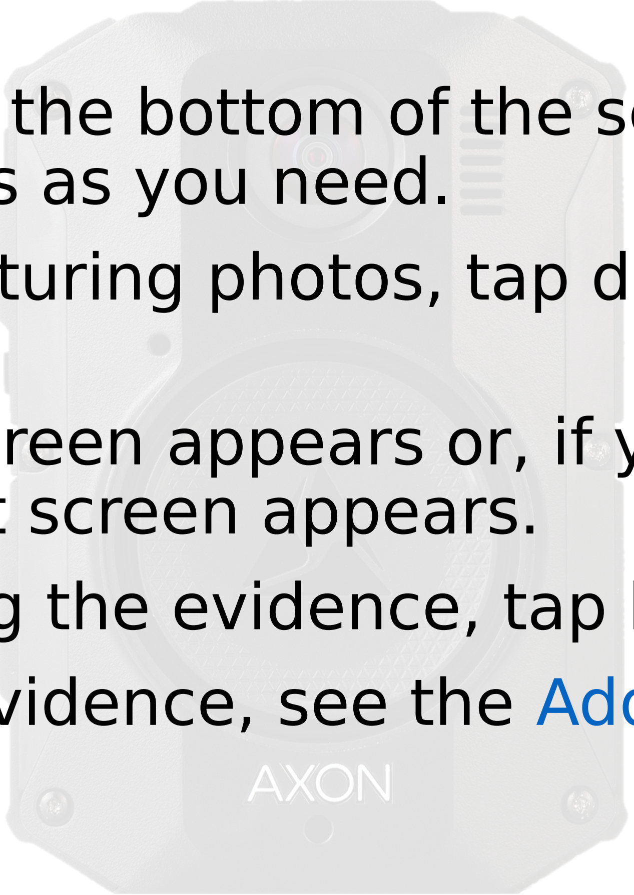
- Axon View is an app downloaded on your department issued cell phones that allows you to play video files that are currently stored on an Axon camera and to apply metadata (such as case ID) to video files.
- Axon View never saves video files on the mobile device
- Axon View cannot delete or alter original video files that are stored on an Axon camera.
- Department phone must be updated to pair with Axon Body 3.

AXON CAPTURE



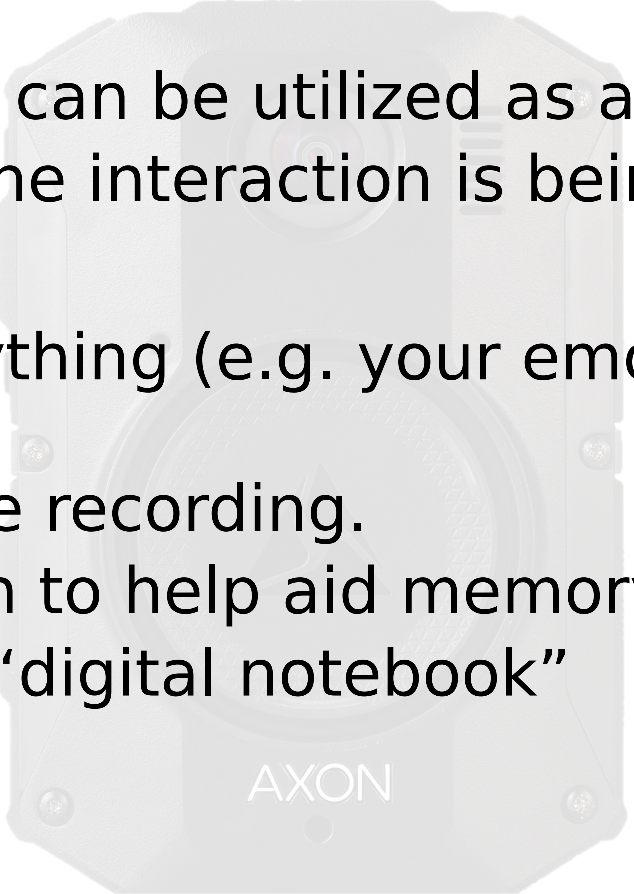
- Axon Capture enables easy access to the camera app on your mobile device and automatically prompts you to apply metadata tags to the recorded evidence files when you are done capturing them.
- In Axon Capture, go to the **Capture** screen and tap **Photo**. The camera app opens.
- Tap the Flash icon in the lower left of the screen to set the camera flash for the photos. The options are automatic flash, flash on, and flash off.

AXON CAPTURE



- Tap the round button at the bottom of the screen to take a photo. Capture as many photos as you need.
- When you are done capturing photos, tap done in the lower-right of the screen.
- The Evidence Review screen appears or, if you captured more than one photo, the Bulk Edit screen appears.
- If you do not want to tag the evidence, tap back.
- If you want to tag the evidence, see the Adding Metadata to Files section.

TACTICAL CONSIDERATIONS

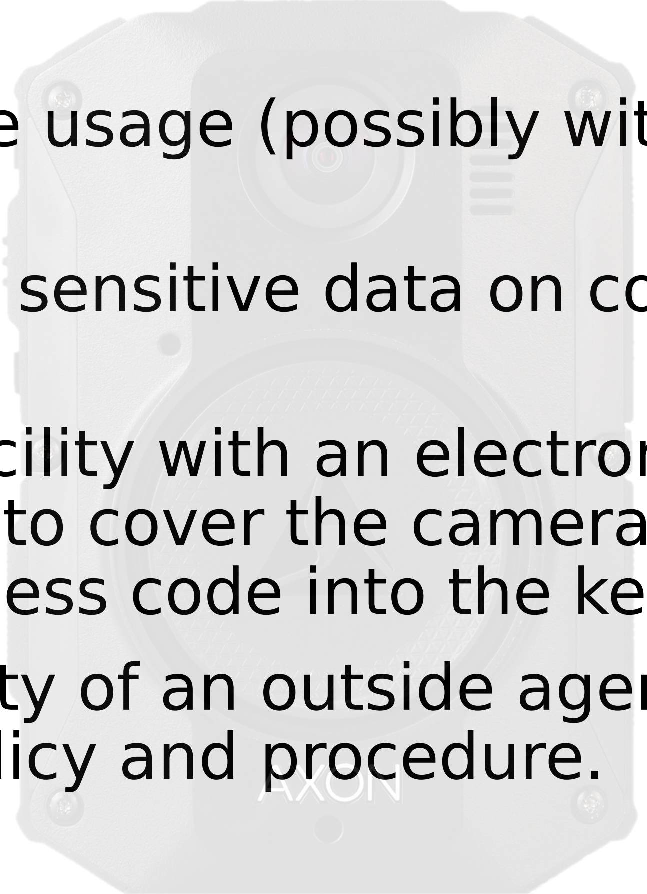


- The body-worn camera can be utilized as a de-escalation tool.
  - Verbally state that the interaction is being recorded.

- It cannot capture everything (e.g. your emotions, dispatched information).
  - Talk to yourself while recording.
  - Narrate the situation to help aid memory.
  - Utilize camera as a “digital notebook”
  - Explain senses.

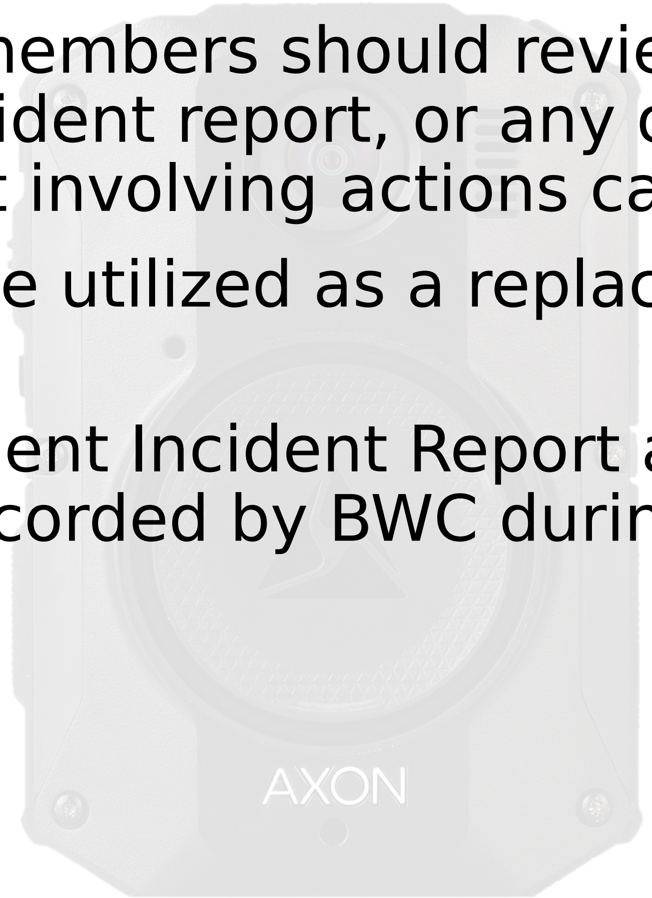
- It can capture things you don’t see.
- It can assist with case preparation.

OPERATIONAL CONSIDERATIONS



- Be aware of cell phone usage (possibly within view of the body-worn camera).
- Be aware of capturing sensitive data on computer screens and other documents.
- When entering in a facility with an electronic access control system, Members are to cover the camera lens of their BWC while entering the access code into the keypad.
- When entering a facility of an outside agency, adhere to their body-worn camera policy and procedure.

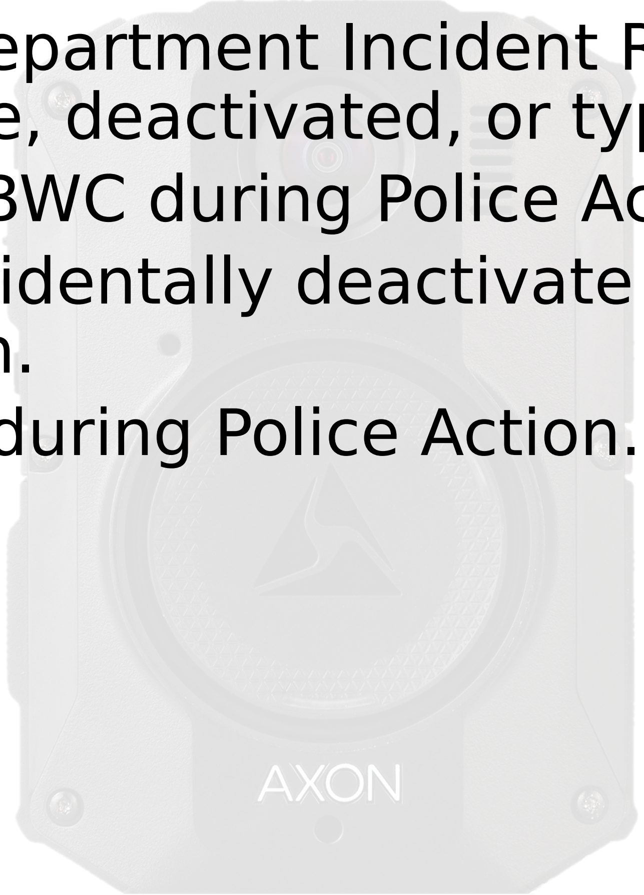
REQUIRED WRITTEN DOCUMENTATION



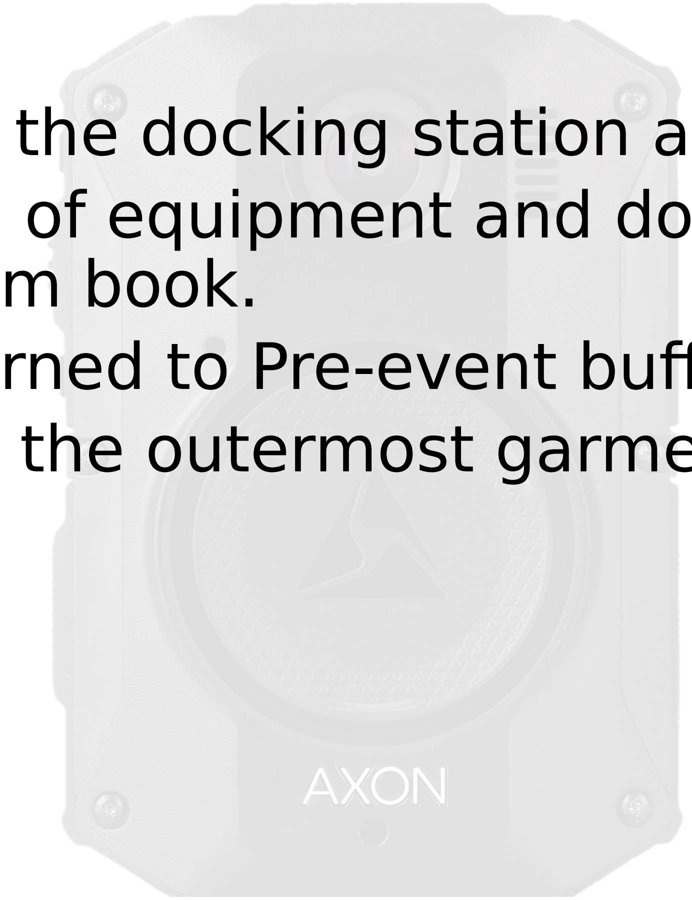
- Whenever practical, members should review a recording prior to completing a case/incident report, or any other report or memorandum request involving actions captured on BWC.
- Recordings shall not be utilized as a replacement for written reports.
- Document in Department Incident Report and Investigative Report if video was recorded by BWC during Police Action.

REQUIRED WRITTEN DOCUMENTATION

- Brief explanation in Department Incident Report of why BWC recording wasn’t made, deactivated, or type of malfunction if:
  - Failure to activate BWC during Police Action.
  - Intentionally or accidentally deactivate the BWC recording during Police Action.
  - BWC malfunctions during Police Action.



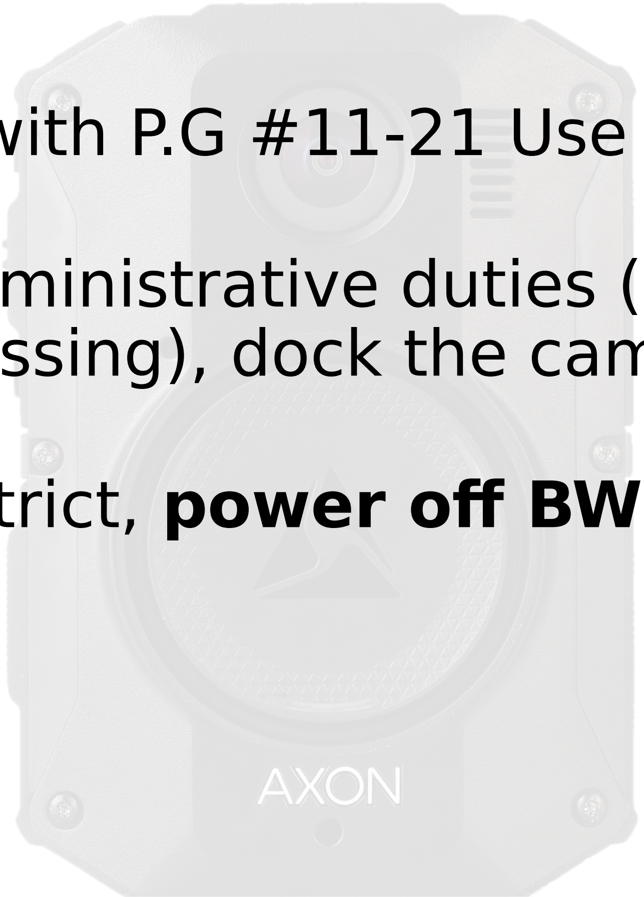
ADMINISTRATIVE DUTY



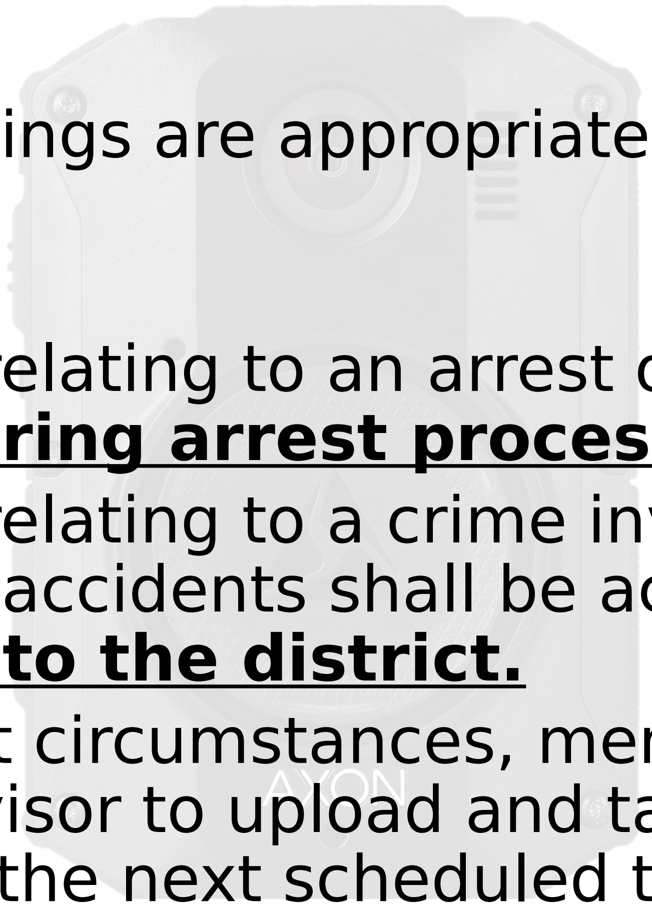
- **Beginning of Tour:**
  - Retrieve BWC from the docking station at the start of tour.
  - Conduct inspection of equipment and document results in Digital Memorandum book.
  - Ensure BWC is returned to Pre-event buffering mode.
  - Position camera on the outermost garment.

ADMINISTRATIVE DUTY

- **During Tour:**
  - Stay in compliance with P.G #11-21 Use of Body Worn Cameras (BWC).
  - While performing administrative duties (i.e. completing case reports, arrest processing), dock the camera for uploading/charging.
  - While inside any District, **power off BWC**.

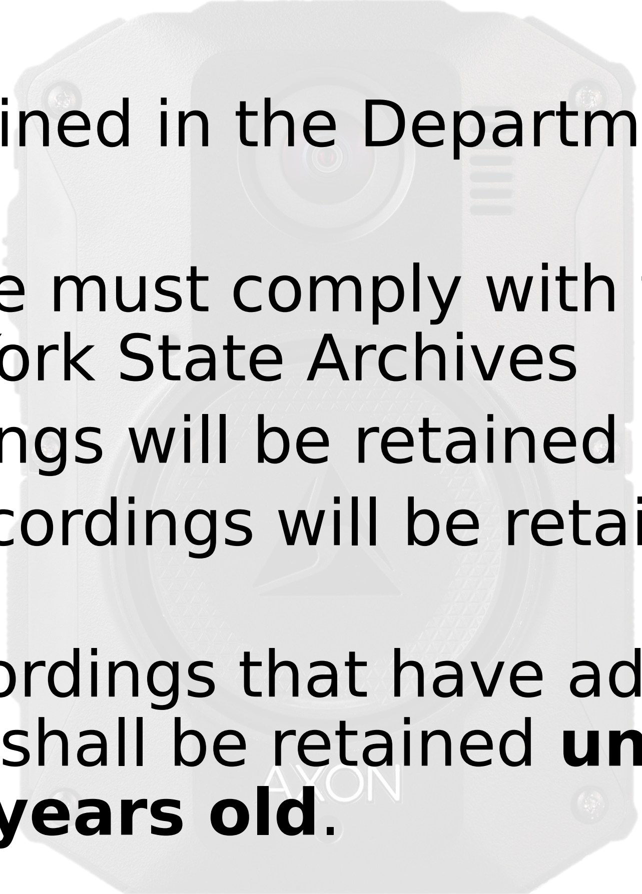


ADMINISTRATIVE DUTY



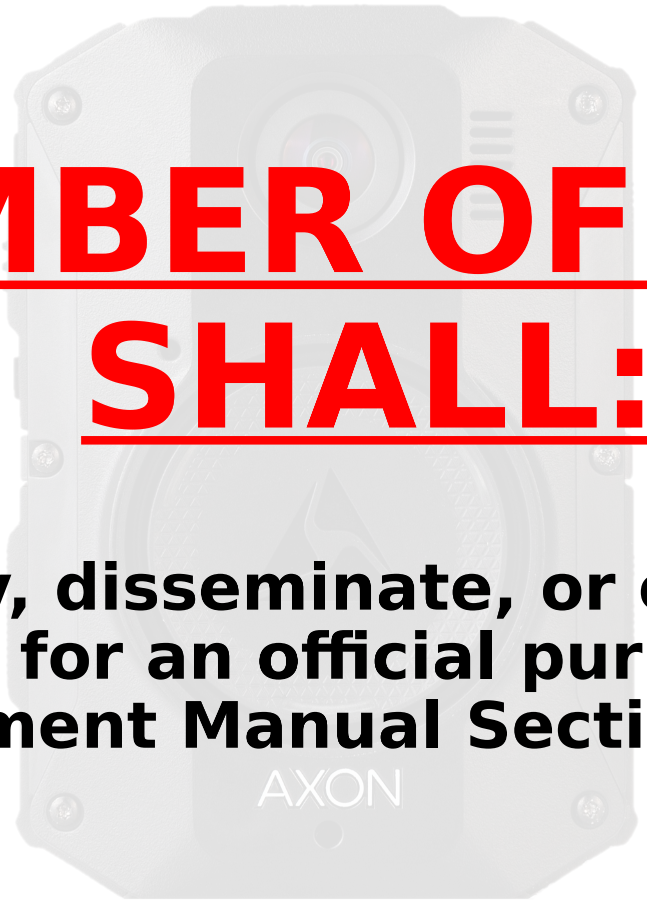
- **End of Tour**:
  - Ensure **all** recordings are appropriately categorized and Redacted
  - BWC recordings relating to an arrest of a subject shall be accomplished **during arrest processing.**
  - BWC recordings relating to a crime investigation, critical incident, or train accidents shall be accomplished **upon reporting back to the district.**
  - Absent of exigent circumstances, members may request from their supervisor to upload and tag the recordings at the beginning of the next scheduled tour, except if the next scheduled tour is after a day(s) off.
  - Dock BWC in appropriate docking station.

STORAGE AND RETENTION



- All evidence is maintained in the Department’s approved storage location.
- The retention schedule must comply with the minimum standard required by the New York State Archives
  - Evidentiary recordings will be retained for **three (3) years**.
  - Non-evidentiary recordings will be retained for **six (6) months**.
  - Juvenile – BWC recordings that have administrative or potential legal use shall be retained **until the juvenile turns twenty-one (21) years old**.

EVIDENCE MANAGEMENT



NO MEMBER OF SERVICE SHALL:

Access, view, copy, disseminate, or otherwise use a BWC recording except for an official purpose as specified in Department Manual Section #11-21

AB3 | OVERVIEW

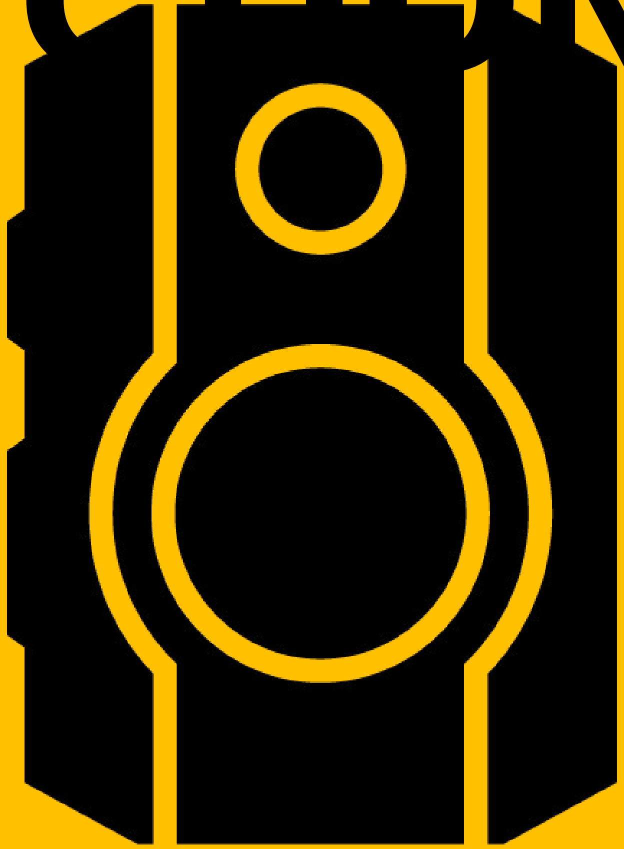
OPERATING FUNCTIONS



BUFFERING MODE

The Buffering Mode is 60 seconds of video only, no audio

BUFFERING M

RECORDING VIDEO

To start a recording, double press the Event

*While recording, the AB3 will beep and vibrate every two minutes to remind user it is recording.

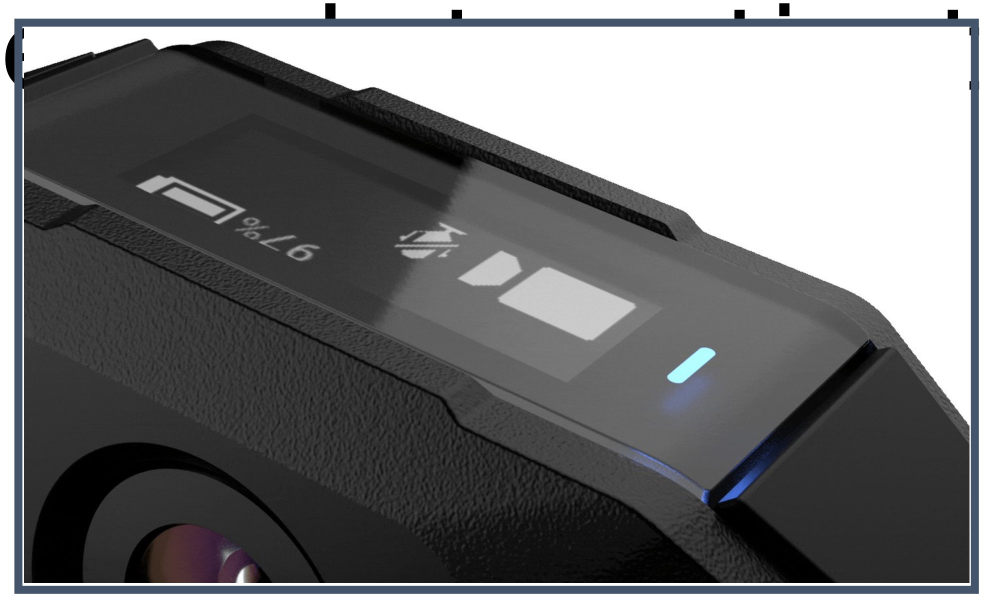
RECORDING VIDEO

To end a recording, hold the Event Button for 3-seconds, or until you receive feedback confirmation.

MUTING AUDIO

While in Record mode hold the Select Button for 3-s

e



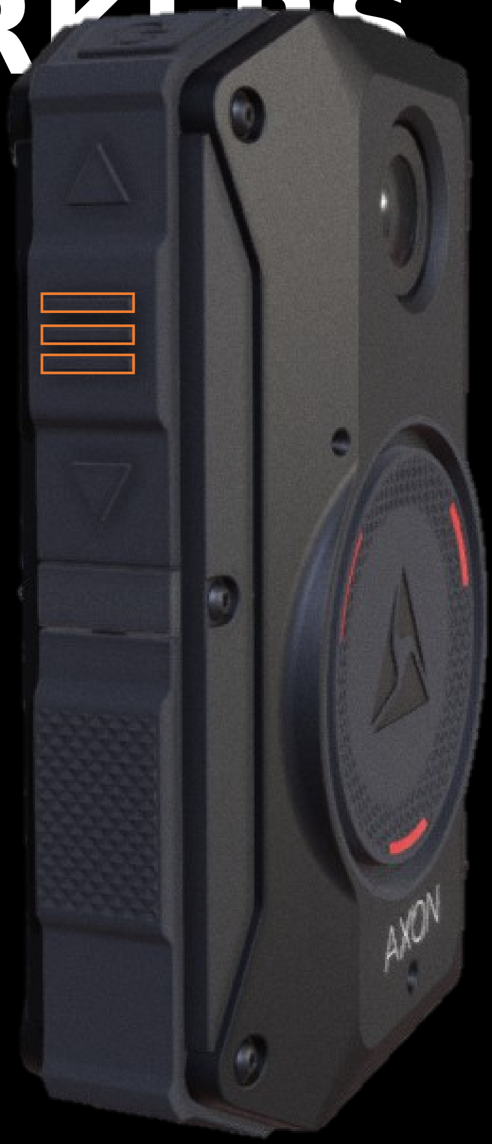
To confirm, the AB3 will beep, vibrate, display the mute icon,
and the operation LED will blink blue (if

MUTING AUDIO

To deactivate Mute Mode hold the Select Button for 3-

To confirm deactivation, the AB3 will beep, vibrate, the mute icon will disappear, and the operation LED will blink

ADDING MARKERS



Select Button

To add a marker: Press and release the Select Button. The AB3 will vibrate to confirm that a Marker was added.

ADDING MARKERS

“***Markers***” are useful for indicating an important event that you want to easily find when replaying the video.

REDACTED

The “***Marker***” is shown when the video is replayed in and documented in the audit trail.
